

As you plan your monument or memorial, please think about the following questions:

1. What qualities do you want to emphasize in your monument? What message are you trying to send?
2. What will your monument or memorial look like? How big will it be? What colors, materials, textures, and shapes will you use?
3. Where will your monument be placed? How do you expect visitors to interact with it? Will you include a visitor's center, picnic space, a park, or other amenities to make the space educational or functional in some other way, or will the monument stand alone?
